

## WORK IN YOUR AREA

This map is a graphic and may not show exact locations.

### Work in your area

**We will begin constructing two natural gas regulator stations at 1265 Sheridan Boulevard as early as Monday, May 8, 2023.**

During work area setup, you may notice:

- Marking of utility lines and utility survey holes.
- Road, alley and sidewalk closures.
- Traffic control measures.

- Temporary changes to access.
- Construction noise.
- Parking restrictions.

Schedules are subject to change.

### Overview

We are revitalizing a portion of our natural gas system serving the west Denver metro area by installing natural gas line and constructing two natural gas regulator stations in Lakewood and Denver.

This work allows us to provide safe, reliable service, increases natural gas capacity in many metro area communities and enhances system resiliency in extreme weather.

### Safety

Public safety is at the foundation of all we do. The safety of the public around Xcel Energy's natural gas system influences every decision we make.

If you suspect a natural gas leak, leave your home or business immediately. Once you are safely away, call **911**, then Xcel Energy at **800-895-2999**.
